# Specifications

Model No. TF037F-2000-P

**Issuing Date** 

Aug.4, 2017

#### 1. Scope

This specification applies to Blower Kit:TF037F-2000-P (hereinafter referred to as "the PRODUCT"), a product of NIDEC COPAL ELECTRONICS CORP. (hereinafter referred to as "NCEL"). Contents of the kit are Micro Blower:TF037F-2000-F, Driver board, Harness (2 types) and Instruction manual.

#### 2. Specification

(Note1) Unless otherwise specified, the environmental conditions are 23℃±5℃, normal humidity, and atmospheric pressure range 90 to 106kPa.

(Note2) Measuring conditions:

Supply voltage = DC24V, measurement equipment = NCEL's standard equipment

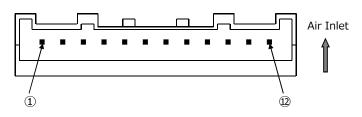

(Note3) This specification represents the characteristics at the time of product shipment. Changes in characteristics over time are not covered by this specification.

No.	Items	Specification	Remarks			
1	Rated Voltage	DC 24 V±10%				
2	Direction of Rotation	CCW (Counter-Clockwise)	Viewed from top of air inlet.			
3	Kind of Gas	Air	Noncorrosive gas			
4	Configuration	Motor with Centrifugal Turbo Blade	Driving circuit required separately			
5	Type of Motor	DC Brushless Motor				
6	Number of Poles	8 Poles ( 4 pole pairs)				
7	Drive System	3 Phase, Bipolar				
8	Bearings	Aero-Dynamic Bearings				
9	Impeller	Centrifugal Turbo Blade				
10	Outline	Micro Blower : 6404-00635-00 (Drawing)	Please refer to attached drawing.			
10	Oddine	Driver Board : 6404-00431-01 (Drawing)	ricase relei to attached didwing			
11	Mounting Direction	Shaft vertical to ground, air inlet facing upwards	No vibration, shock, or gyration to be applied to the product operation.			
12	Rated Rotation Speed	31,000 r/min (reference value)	at 2.0kPa, 100L/min			
13	Max. Input Coil Current	3.0 A max. (rms)	Excluding inrush current.			
14	Rated Power Supply Current	0.67 A max. (reference value)	at Rated Voltage=DC 24V at 2.0kPa, 100L/min			
15	Rated Power Consumption	29 W max. (reference value)	at Rated Voltage=DC 24V at 2.0kPa, 100L/min			

25 Insulation Class Class E  26 Insulation Resistance 1M ohm min.  27 Dielectric Strength  28 Weight  Micro Blower : 72g  Driver Board : 32 g  Possible Processing Processing Processing Process Processing Proce	No.	Items		Specifica	Remarks

Non-operating         Test Time       X, Y, Z directions, 60min. each         Satisfy Spec No.12 ~ 27 after the following test;         Acceleration       294m/s² (30G)         Pulse Width       6ms         Non-operating	30	Max. Axial Loading	3 N max.			Max. allowable force to the intake (upper housing) in axial direction.			
Storage   Temperature Range   -20 ~ 60°C	31		0 ~ 50℃						
Temperature Range  34 Storage Humidity Range  Satisfy Spec No.12 ~ 27 after the following test;  Kind of Vibration  Frequency veering  Frequency veering  Frequency Range  10~22Hz @ amplitude 1mm  10~22Hz @ acceleration 19.6m/s² (2G)  Sweep To-and-fro, approx. 5min.  Test Time X, Y, Z directions, 60min. each  Satisfy Spec No.12 ~ 27 after the following test;  Acceleration 294m/s² (30G)  Pulse Width 6ms  Non-operating	32		$10\sim 80\% \mathrm{RH}$			No condensation			
Resistance to Vibration  Resistance to Satisfy Spec No.12 ~ 27 after the following test;  Acceleration 294m/s² (30G)  Resistance to Shock  Resistance to Shock  Resistance to Shock  Resistance to Shock  Non-operating	33		-20 ~ 60℃						
Resistance to Vibration  Frequency Range  10~22Hz @ amplitude 1mm 22~50Hz @ acceleration 19.6m/s² (2G)  Sweep To-and-fro, approx. 5min.  Test Time X, Y, Z directions, 60min. each  Satisfy Spec No.12 ~ 27 after the following test;  Acceleration 294m/s² (30G)  Pulse Width 6ms  Non-operating	34		$10\sim 90\% RH$			No condensation			
Resistance to Vibration  Resistance to Shock			Satisfy Spec No	$\sim$ 27 af	ter the following test;				
Resistance to Vibration  Resistance to Vibration  Range  Frequency Range				Frequency \	veering				
Vibration  Range  22~50Hz  19.6m/s² (2G)  Sweep  To-and-fro, approx. 5min.  Test Time  X, Y, Z directions, 60min. each  Satisfy Spec No.12 ~ 27 after the following test;  Acceleration  294m/s² (30G)  Pulse Width  Pulse Width  Non-operating	25	Resistance to	Frequency	10∼22Hz @	amplitude 1mm	Non energting			
Sweep To-and-fro, approx. 5min.  Test Time X, Y, Z directions, 60min. each  Satisfy Spec No.12 ~ 27 after the following test;  Acceleration 294m/s² (30G)  Pulse Width 6ms  Non-operating	35	Vibration	Range	122~50Hz -		non-operating			
Satisfy Spec No.12 ~ 27 after the following test;  Acceleration 294m/s² (30G)  Resistance to Shock Pulse Width 6ms Non-operating			Sweep						
Acceleration 294m/s² (30G)  Resistance to Shock  Pulse Width 6ms  Non-operating			Test Time	X, Y, Z dire	ctions, 60min. each				
Resistance to Shock Pulse Width 6ms Non-operating			Satisfy Spec No	ter the following test;					
Shock Pulse Width 6ms Non-operating			Acceleration	294m/s² (3	30G)				
	36		I I Pulse Width I6ms			Non-operating			
		Snock	Shock Wave	Semi-sinuso	oidal wave				
Number of X, Y, Z, directions, once per each Shock direction					ections, once per each				

## 3. Interface

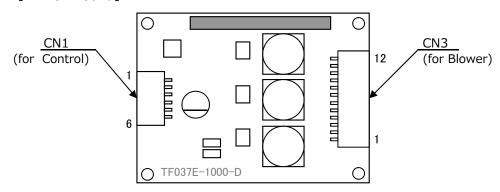

## [Micro Blower]

Manufacturer	J.S.T. Mfg. Co., Ltd.
Part No.	SM12B-PASS

Pin No.	Symbol	Signal						
1	Vcc	Hall Element Power Supply (+12V)						
3	H2- H2+	Hall Element 2 Output						
<u>4</u> 5	H3- H3+	Hall Element 3 Output						
6 7	H1- H1+	Hall Element 1 Output						
8	GND	GND						
9	TH	Thermistor Output						
10	٧	Motor Coil (V)						
11	W	Motor Coil (W)						
12	U	Motor Coil (U)						

# [Driver Board]

CN1: Connector for Control

CITT I COITING	ceor for corneror
Manufacturer	J.S.T. Mfg. Co., Ltd.

9	H3-	Tiali Liement 3 Output						
10	H2+	Hall Floment 2 Output						
11	H2-	Hall Element 2 Output						
12	Vcc	Hall Element Power Supply (+12V)						

## 4. CN1(Connector for Control)Specification

Pin No.	Symbol	S	pecification
1	Error	Error Output L=Undetected H=Detection	1 Ö Micro-controller Errori
2	FG	Rotational Speed Signal Output (FG)  12 pulse / rev. Open Collector Output Max. Voltage: 50V Max. Output Current: 3mA	<pre>CDriver side&gt; 2</pre>
3	BR	Short brake Input L=Rotation H=Short brake	$\langle Driver side \rangle$ BR $\downarrow 100p$ $\downarrow 4.7k\Omega$ $\downarrow GND$
4	CNT	Control Voltage Input  Input Voltage for Standby  Input Voltage for Operation  1.0 to 5.0V	<pre>CDriver side&gt;</pre>
5	Vcc	Power Supply Voltage Input DC24V±10%	<pre></pre>
6	GND	GND	GND

#### 5. Operating Range

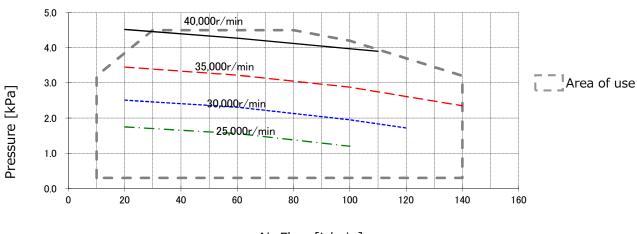

Conditions: Ambient temperature  $23\pm5^{\circ}$ C, normal humidity, atmospheric pressure ( $100\pm2$ kPa). Operating range will be discussed separately.

The following graph is provided for reference only. Values are not guaranteed.

Make sure the thermistor temperature does not exceed  $86^{\circ}$ C during blower operation.

(Thermistor resistance value R(86 deg C)=0.968k $\Omega$ )

# **Operating Range at DC24V (1atm)**

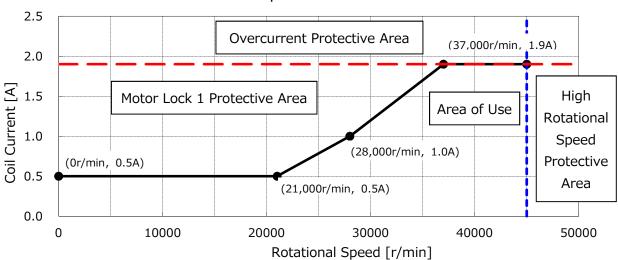

Air Flow [L/min]

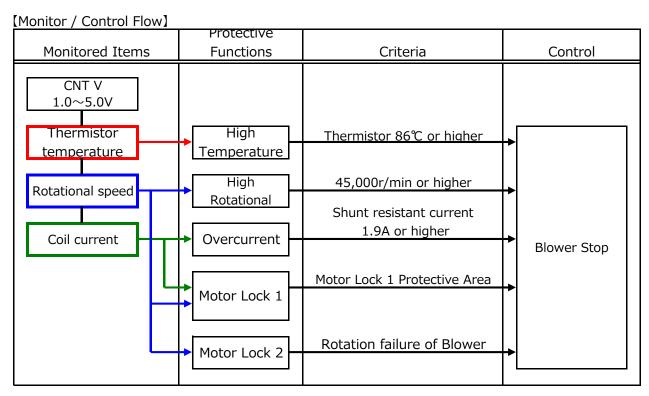

#### 6. Protective Functions

Attached Driver Board[TF037E-1000-D] is featured with the following protective functions.

Protective	Description
Functions	Description
High Temperature	Power will be turned off when the thermistor inside the Blower exceeds $86^{\circ}$ C.
High Temperature	Power will be turned off when the rotational speed exceeds 45,000 r/min.
Overcurrent	Power will be turned off when the coil current exceeds 1.9A (except start-up).
Motor Lock 1	Power will be turned off when coil current and rotational speed are in the "Motor
	Lock Protection Area" shown in Graph 2 below.
Motor Lock 2	Power will be turned off when the Blower does not operate even when the PRODUCT
	is giving command to operate.

Graph 2. Protective Area

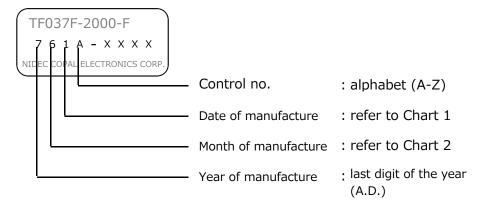

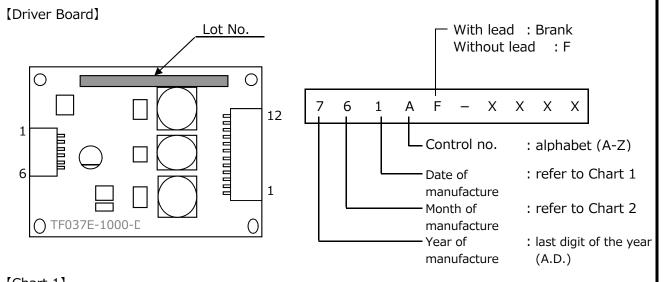

《 Restart Conditions After Blower Stop》 Restart with turning the power on again.

#### 8. Warranty

#### 8-1. Warranty Period

Warranty period of the PRODUCT is 1 year from delivery.

#### 8-2. Warranty Scope

(1) In case a defect is found in the PRODUCT during the above warranty period and NCEL is responsible for the defect, NCEL will either repair or replace the defected PRODUCT free of charge.

However, in the following cases, the PRODUCT will not be covered by warranty.

- Defects caused by inappropriate conditions, environments, handlings, and use which are not specified in this specification.
- Defects caused by your equipments and/or software.
- Defects caused by modifications and/or repairs which were not done by NCEL.
- Defects which could have been avoided if the PRODUCT was used accordingly to this specification.
- Defects which were unpredictable with the scientific or technical level of NCEL at the time of shipment.
- Defects caused by external factors such as natural hazards (fire, earthquakes, floods) or electrical
- (2) NCEL will be responsible for the PRODUCT only in which the coverage will be limited to Clause 8-2. (1). NCEL shall not be liable for customer's equipment damages, opportunity losses, or lost earnings caused by defects of the PRODUCTS. The user shall indemnify NCEL and hold NCEL harmless from any liability or damage whatsoever arising out of any action not in accordance with this specification.

#### 8-3. Product Application

The PRODUCT is designed and manufactured for general industrial use for general-purposes. Please do not use in applications such as nuclear power, aviations, railroads, or medical equipment where great effect to human lives or wealth are expected.

However, if NCEL agree with the customer the usage of the PRODUCT in such applications, NCEL will warrant the PRODUCT in the same scope described in "8. Warranty" in this specification.

#### 9. Notes

- (1) All values are measured with NCEL's standard equipments unless otherwise specified.
- (2) The PRODUCT is compliant with RoHS directives which went into effect July, 2011.

  Designated hazardous substances are lead, mercury, cadmium, hexavalent chrome, brominated flame retardants (PBB, PBDE) and its compounds.
- (3) The PRODUCT is compliant with Directive 2006/122/EC of the European Parliament (Council Directive 76/769/EEC (30th amendment)) which restricts the use of PFOS.
- (4) Contents of this document may be changed without notice. The production of the PRODUCT may be discontinued without notice. Please confirm with your local contact before ordering.
- (5) Please check if the PRODUCT operates normally at every start-up and during operation.
- (6) Please provide safety measures to prevent damages in case of product failures.
- (7) Performance cannot be guaranteed in case the PRODUCT is used beyond the specification or the PRODUCT is modified.
- (8) Depending on the conditions or the environment, functions or performances of the PRODUCT may not be satisfied when the PRODUCT is used with other equipments.
- (9) Please do not use the PRODUCT in applications to protect the body.
- (10) Please protect the PRODUCT from condensation.
- (11) Please use the correct supply voltage to operate the PRODUCT.
- (12) Do not disassemble or modify the PRODUCT.
- (13) Turn off the power immediately and stop using the PRODUCT in the following cases.
  - In case water or foreign substances get into the PRODUCT.
  - In case the PRODUCT is dropped or the housing is broken.
  - In case unusual odor, abnormal noise, or smoke are generated from the PRODUCT.
- (14) Do not use or store in the following conditions;
  - Humid, dusty, or poorly-ventilated area.
  - Areas where the temperature is expected to rise (direct sunlight, etc.).
  - Areas with corrosive gas or flammable gas in the surrounding air.
  - Areas where vibration, shock, or rocking motion is applied directly to the PRODUCT.
  - Areas where the PRODUCTS may be splashed with water, oil, or chemicals.
  - Areas where static electricity can easily be built up.
- (15) Make sure the wiring is done properly.
- (16) Turn off the power of the PRODUCT and any equipment attached to the PRODUCT when putting on or taking off the cables.
- (17) Install the PRODUCT using cushioning materials such as vibration dampeners. Please contact NCEL if you have any questions regarding installation.
- (18) Do not block the air inlet and outlet (3 places). Please contact NCEL if you have any questions regarding the air inlet and outlet.
- (19) Vibration or audible noise level may change over time due to contamination of the blade. Please provide dust-proof constructions around the PRODUCT.
- (20) Please advise us in case the driving circuit will be designed at the customer's side.
- (21) Please connect and don't use air inlet of this product (2 places) in series.
